SANTA CLARITA VALLEY HOME SALES UP 3% DURING 2009

Sales of existing single-family homes in the Santa Clarita Valley increased for the second consecutive year during 2009 with the 2,258 closed escrows up 2.9 percent from the tally reported in 2008, the Southland Regional Association of Realtors reported.

The increase in activity was not as pronounced as the 10.1 percent rise reported in 2008 primarily because tight financing and an extremely limited inventory of properties listed for sale restricted sales even as buyers returned to the market to capture favorable prices, low interest rates and a federal tax rebate.

Annual condominium sales also increased during 2009, posting a 0.5 percent gain over 2008. It was the first increase in condo annual sales after three consecutive years of declines. A total of 840 condos changed owners last year.

The 3,098 properties negotiated by Realtors during 2009 generated \$1.16 billion for home buyers, sellers and the local economy. Typically, each sale yields many thousands of dollars more as buyers paint, landscape, remodel and purchase appliances to prepare a home for occupancy.

"Overall, what we're seeing is very encouraging," said Andrew Walter, the 2010 president of the Association's Santa Clarita Valley Division. "The bottom has passed and in 2010 we're likely to see more sales and a slow, steady increase in resale prices."

The annual median price of single-family homes sold last year declined for the third consecutive year, although not as steeply as in 2008. The 2009 annual median of \$407,208 was down 8.5 percent from the prior year, compared with a 22.0 percent drop posted in 2008.

However, Walter noted that the low point for resale prices of this real estate cycle came in December 2008 when the monthly median hit \$385,000.

Ever since, prices have been trending higher as multiple bidders compete over a limited number of homes for sale. The year ended with a December median price of \$417,500, the highest monthly median of the year.

"It's very important for consumers to understand that while prices are still the most favorable in many years, the demand for entry-level homes is so strong that we're seeing multiple offers on the limited number of properties listed under \$500,000," Walter said.

"We're blessed that Santa Clarita is such a desirable place to live," Walter said, "yet that translates into added competition on every listing and the need to present offers over list price if a buyer wants a real chance of success."

With most buyers hoping to take advantage of a unique opportunity to buy a single- family home, condominium resale prices have been slow to recover, although there, too, the low point appears to have passed with the lowest monthly median of this cycle appearing in March.

The condo annual median price of \$226,567 was 15.5 percent lower last year, which was an improvement from the 24.1 percent drop in the annual price seen in 2008. It was the third consecutive the condo annual median fell.

"Prices are still down from the prior year, which is what attracts buyers," said Jim Link, the Association's chief executive

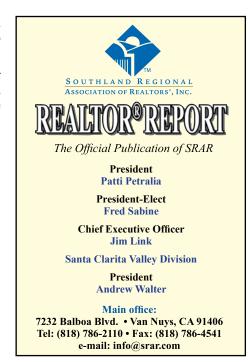

officer, "but the upward trend in prices has narrowed the gap.

"The market certainly is not healthy or even balanced, with the scale still favoring buyers," Link said, "but it certainly has improved and is much better off than this time last year."

December ended on a relatively positive note, even with a limited inventory. December single-family sales of 178 homes were off 7.3 percent from the prior year, but up 9.9 percent from November as buyers sought to lock in the federal tax credit, which had been set to expire at the end of November but has since been extended through April 30. December condo sales of 94 units were up 5.6 percent from the prior year and rose 30.6 percent from the November tally.

There were 738 properties listed for sale at the end of December throughout the Santa Clarita Valley. That was down 44.7 percent from the prior year. At the current pace of sales, the inventory represents a mere 2.7-month supply, down from the 4.7-month supply of December 2008. A supply of 5- to 6-months is believed to represent a "balanced" market. Pending escrows, a measure of future resale activity, increased 16.7 percent during December, which suggests the market will remain busy well into the Spring.

SAN FERNANDO VALLEY HOME SALES POST STRONG GAINS IN 2009

Single-family home and condominium sales throughout the San Fernando Valley during 2009 handily surpassed totals reported in 2008 as the most favorable resale prices in years, federal tax credits and low interest rates attracted legions of buyers eager to benefit from a unique moment in time, the Southland Regional Association of Realtors reported.

The 7,793 single-family home sold last year were 9.9 percent higher than 2008. It marked the second consecutive year that sales increased after four consecutive years of annual drops beginning in 2004.

Likewise, after six consecutive years of declines in condominium sales, 2009 ended with 2,494 condos changing owners. That number was up 15.4 percent over the prior year.

The 10,287 sales negotiated by San Fernando Valley Realtors contributed \$4.2 billion to the local economy, not including the additional sales, ranging from furniture and appliances to remodeling and landscaping, that each sale typically generates.

"This is the opportunity market for many people who have been sitting on the sidelines," said Patti Petralia, the 2010 president of the Southland Regional Association of Realtors. "There is enough pent-up demand that I sense that the entry level market is still going to be very strong as we move into the New Year."

Petralia and Jim Link, the Association's chief executive officer, were guardedly optimistic that 2010 will be a stabilizing, active year for local real estate, barring any unforeseen changes in the economy.

"While the tide has turned," Link said, "we're still not where we'd like to be due to the continued presences of short pays, a dwindling number of foreclosures, and an overall lack of inventory. Still, we're certainly past the worst of the residential real estate recession "

The number of foreclosures is down, but some analysts believe banks have what is called a "shadow inventory" of foreclosed properties that could be released sometime this year, an inventory that Link and Petralia said current demand could absorb.

Virtually every property listed below \$500,000 receives multiple offers that typically are higher than the list price simple because there are not enough properties listed to meet demand.

The 2,667 active listings at the end of December were down 44.6 percent from a year ago. At the current pace of sales, the

inventory represents a 3.1-month supply, down from a 5.20-month supply a year ago. A balanced market emerges when the supply hovers between a 5- and 6-month supply.

The lack of inventory stopped the slide in the median price of single-family, which bottomed out in February at \$339,900 and has been climbing ever since, posting a \$400,000 median price in December.

While prices have been climbing higher on a month-to-month basis, the annual median price posted a decline compared to the prior year. The annual median price of single-family homes for 2009 was \$372,483, down 14.6 percent from 2008 for the second consecutive year of declines. In 2008 the annual median of \$435,687 was down 26.6 percent from the 2007 recordhigh annual median of \$611,933.

Similarly, the condominium annual median price fell for the third consecutive year during 2009. The year ended with a condo median of \$218,650, down 22.6 percent from 2008. The record high annual condo median of \$394,917 was set in 2006.

It has taken longer for condo prices to stabilize as buyers focused on the unique opportunities presented to purchase single-family homes, Link said. The condo median hit its low point of this cycle in January 2009 with a median of \$190,000.

The year ended with the December median price at \$240,000.

While it varies from lender to lender, with some adhering to stricter rules than others, Petralia said home loans are more available than a few months ago.

"It depends on the borrower," she said. "Getting a loan might take longer, there may be more eyeballs scanning every document, but loans are available if the borrower has good credit and good documentation."

Link said the lending industry is slowing adjusting although some are being overly cautious.

"What is being sorted out now was an over correction," Link said. "Not long ago, lenders too quickly gave money to people who didn't qualify. Now they sometimes are too slow to lend to those who do qualify."

Pending escrows, a measure of future sales activity, were up 2.8 percent over a year ago, suggesting that the revived market will continue for months to come.

"It's all good news compared to a year ago," Petralia said.

VETS GAIN TIME ON TAX CREDIT

U.S. military personnel and other federal workers who are serving out-side the country have an extra year to qualify for the \$8,000 tax credit offered to first-time home buyers and the \$6,500 credit available to repeat buyers.

To capture the credits, the law specifies that eligible taxpayers must sign a contract to buy a principal residence by April 30 and close escrow no later than June 30.

However, military personnel get an extra 12 months, which means they have until April 30, 2011, with closing to come within 90 days.

Typically, the credit must be repaid if within three years of the purchase the home is no longer the buyer's principal residence. However, for members of the armed services, intelligence community or Foreign Service, that provision is waived if the house is sold in connection with orders sending

the owner to a new duty station which is at least 50 miles away. There also are programs designed to help military personnel if they sold a home at a loss because of permanent duty transfer.

Home owners who were injured, wounded or became ill in the line of duty while deployed since Sept. 11, 2001, and are relocating for further medical treatment will get priority in the processing of applications. This includes the Coast Guard and civilian employees of the Department of Defense.

Spouses of military personnel killed in the line of duty also would get preferential treatment if they must relocate within two years of the death of their mates.

For further details of the programs, contact the Army Corps of Engineers, which is charged with administering the Homeowners Assistance program on behalf of all branches of the military.

FHA TO HIKE DOWNPAYMENT FOR STANDARD FORM **BUYERS WITH POOR CREDIT**

BY PATTI PETRALIA, PRESIDENT, AND DAVID WALKER, SRAR MEDIA CONSULTANT

It won't happen until this summer, but buyers with FICO scores lower than 580 will have to come in with a higher downpayment to qualify for a FHA loan, the government announced Tuesday.

The 3.5 percent minimum downpayment - highly favorable terms from one of the few sources of loans out there today - will remain for borrowers with a 580 credit score or higher.

But for those with lower credit scores, the minimum down payment will be hiked to 10 percent as of this summer if the borrower wants to participate in FHA's mortgage insurance program.

Realtors have opposed efforts to increase the down-payment, insisting it would exclude too many borrowers without truly improving FHA's reserves. There had been a proposal to raise the downpayment to 5 percent for all borrowers, but that appears to have been dropped with Tuesday's announcement.

"Striking the right balance between managing the FHA's risk, continuing to provide access to underserved communities, and supporting the nation's economic recovery is critically important," said FHA Commissioner David Stevens.

"These changes are among the most significant steps to address risk in the agency's history," he said. "Additionally, by continuing to provide affordable, responsible mortgage products, FHA will support the housing market's recovery. Importantly, FHA will remain the largest source of home purchase financing for underserved communities."

FHA policy changes include:

• Mortgage insurance premium will be increased to build up capital reserves and bring back private lending. The first step will be to raise the up-front MIP to 2.25% and request legislative authority to increase the maximum annual MIP that the FHA can charge. If this authority is granted, then the second step will be to shift some of the premium increase from the up-front MIP to the annual MIP. This shift will allow for the capital reserves to increase with less impact to the consumer, because the annual MIP is paid over the life of the loan instead of at the time of closing. The initial up-front increase will go into effect in the spring.

- Update the combination of FICO scores and down payments for new borrowers. New borrowers will now be required to have a minimum FICO score of 580 to qualify for FHA's 3.5% down payment program. New borrowers with less than a 580 FICO score will be required to put down at least 10%. This allows the FHA to better balance its risk and continue to provide access for those borrowers who have historically performed well. This change will be posted in the Federal Register in February and, after a notice and comment period, would go into effect in the early summer.
- · Reduce allowable seller concessions from 6 percent to 3 percent. The cur-rent level exposes the FHA to excess risk by creating incentives to inflate appraised value. This change will bring FHA into conformity with industry standards on seller concessions. This change will go into effect in the early summer.
- · Increase enforcement on FHA lenders. Publicly report lender performance rankings to complement currently available Neighborhood Watch data - Will be available on the HUD website on February 1. This is an operational change to make information more user-friendly and hold lenders more accountable.
- Enhance monitoring of lender performance and compliance with FHA guidelines and standards. HUD is pursuing legislative authority to increase enforcement on FHA lenders. Specific authority includes: Requiring all approved mortgagees to assume liability for all of the loans that they originate and underwrite; authority to withdraw originating and underwriting approval for a lender nationwide on the basis of the performance of its regional branches.

In addition to the changes proposed Tuesday, the FHA is continuing to review its overall response to housing market conditions, and continuing to evaluate its mortgage insurance underwriting standards and its measures to help distressed and underwater borrowers going forward.

"AS IS" CONTRACT **FRAUDULENTLY CLAIMS TO BE C.A.R. APPROVED**

Members have reported that certain investor buyers use a standard form "As-Is Contract for Sale and Purchase" which fraudulently purports to be approved by the CALIFORNIA ASSOCIATION OF REALTORS® (C.A.R.). This standard form agreement has been used by Greenhills Financial Investment, LLC, among others. C.A.R.'s Legal Department is vigilantly pursuing this matter, which includes issuing cease-and-desist letters against anyone using the form.

The "As-Is Contract for Sale and Purchase" form, which is referenced at the bottom as "FAR/BAR AS IS." has apparently been patterned after Florida Association of REALTORS®'s purchase agreement. In any event, the form purports to be approved by C.A.R., when in fact, C.A.R. has not reviewed or approved the form, and C.A.R. has no business affiliation whatsoever with Greenhills Financial Investment or the form's publisher. C.A.R. currently has no standard form with the words, "As Is," in the title.

REALTORS® who come across the form are encouraged to report the matter to C.A.R. by contacting our Strategic Defense Counsel, Nicole Briggs, at nicoleb@car.

2010 DUES ARE PAST DUE!

SRAR members who have not paid 2010 dues are reminded that dues are now delinquent and subject to a late

The deadline was Friday, January

Dues billings were mailed to all members at their home address in early December. E-mail notices were also sent.

Members can save money and time by paying dues online. It is easy, fast and completely secure!

To pay online, go to the association website www.srar.com and click on the dues button on the homepage.

REALTOR® Repor February 2 - 15, 2010 www.srar.com

Posting

The following Real Estate Brokers have applied for REALTOR® membership. If you have any objections to an applicant's admittance, the objection should be submitted in writing to the Membership Committee at once. In the event a qualified complaint is received, the complaint will be forwarded to the applicant and to the Chairman of the Membership Committee to ascertain that the complaint comes within the purview of the 7 point criteria established by the National Association of REALTORS®. If it does not, the complainant is notified and the applicant is admitted to membership. If it does, the Membership Committee Chairman shall appoint a panel of 3 members from the committee to interview the applicant. The Panel shall make its recommendation to the Membership Committee, which shall then forward its recommendation to the Board of Directors. If the committee recommends disapproval of the application, the Board of Directors will review the recommendation and render a final decision.
