IN MEMORIAM

We are saddened to report the passing of a long-time member, Mr. Larry Little, on March 13, 2016 at the age of 88. He was the manager of the Day Realty office in Arleta, CA.until his retirement in 2002. Mr. Little originally joined the board in May 1963.

SRAR President Seeks Meetings with Members

The 2016 president of the 9,500-member Southland Regional Association of Realtors seeks input and ideas from members of the real estate profession throughout the San Fernando and Santa Clarita Valleys.

Realtor® Gina Uzunyan 2016 President, SRAR

"One of my goals is to personally reach out to as many of you as possible in the hope that will lead to more member engagement," said Gina Uzunyan, SRAR president.

"I am available to speak for a few moments at office meetings about the power and benefits of organized real estate, our association, and our advocacy goals for our profession," she said, adding that she also would be available for a Q&A session with agents and brokers.

If interested in setting up a meeting, please

contact Uzunyan directly at 818-521-8088 or send a private message.

"I look forward to hearing from you!" she said.

4 Problems Sellers May Try to Hide

Homesellers sign a disclosure document that they're being forthright about any problems with a home.

However, it can be very tempting to tell white lies or conveniently forgets facts. Indeed, many real estate lawsuits stem from owners misrepresenting their property.

Realtor.com recently featured some of the most common cover-ups that real estate professionals say they and their clients eventually discover.

1. Water damage — Stains could be a sign of bigger issues, such as water intrusion from leaks or floods. Be alert for red flags: an odd odor, water stains or visible wall cracks. Consider asking that a large picture frame be moved to check what's behind it. Was a fresh coat of paint meant to spruce up the house for sale or to hide something? Ask when the house was last

painted. If it was painted a while ago, it's less likely the owner is trying to hide water stains.

- **2.** Bad foundation Look for jagged cracks in walls. Zigzag cracks may signal a foundation problem. A bad foundation also could prevent cabinets and doors from closing properly.
- **3.** Neighbor nuisances Homeowners have an obligation to disclose what are called "neighborhood nuisances," but if they don't, buyers have to rely on their word. Buyers will want to walk around the neighborhood at different times of day to personally assess the area.
- **4.** Temperature changes A subtle shift in the atmosphere a draft or the air feels dry or damp may suggest an issue. Ask the owner what the room feels like through the seasons. The culprit may be as simple as poor insulation. Or, sometimes it may be a result of the owner adding a second room or an additional floor to the house.

L.A. CITY ADOPTS 'FIX AND RELEASE' SOLUTION FOR BROKEN SIDEWALK

BY GINA UZUNYAN, PRESIDENT

SOUTHLAND REGIONAL ASSOCIATION OF REALTORS®

After eight public hearings, five community meetings, and input from hundreds of residents and dozens of interest groups — including the Southland Regional Association of Realtors -40-year-old miscalculation by the City of Los Angeles, is on its way to being corrected.

The City Attorney has yet to draft and the City Council must still approve the final wording of the ordinance, but a new day is likely to dawn come July when the "Fix and Release" sidewalk repair program is scheduled to take effect.

Four decades ago the City took over from homeowners the responsibility to maintain and repair 11,000 miles of sidewalks. But the responsibility soon overwhelmed the city, especially as it lost access to a cache of federal dollars.

Today there are more than 4,500 miles of broken, unsafe sidewalks. The city spends millions each year settling trip-andfall lawsuits, but it took the prodding of a class-action lawsuit brought the disabled community to force the city to act.

The L.A. City Council recently unanimously endorsed a plan that will spend \$1.3 billion over three decades to finally fix sidewalks.

Here are the currently available details of the 'fix and release' sidewalk plan:

• The City will pay to repair broken sidewalks next to residential, commercial and industrial properties, even if a tree planted by the city did not cause damage.

- Once repaired, the city will offer a warranty period extending 20 years for residential properties. A five-year warranty program was recommended for commercial and industrial properties, which typically see heavier vehicle traffic and additional wear.
- The program will guarantee one additional repair unless the damage was caused by the negligence of anyone other than the city.
- A spending cap per repair site would be set, a move intended to make repair dollars go farther. The final ordinance will establish caps based on different parcel types and sizes. Rebates cannot exceed the actual cost of repair.
- Property owners would be encouraged to fix their own sidewalks, with the city offering a rebate if the repair happens within the first three years of the program. The rebate would be for about half the average cost per square foot, estimated by one councilman at approximately \$15 per square foot. Permit fees would be waived.
- Once a sidewalk is fixed, it would be released to the property owner, who then would bear the cost of ongoing maintenance and repairs. The release to owners would realign the city with the statewide standard set by the 1911

Act, which the city overruled more than 40 years ago when it assumed responsibility for maintenance and repair of about 11,000 miles of city sidewalk.

• The city will begin inspecting, keeping records, and certifying which sidewalks are in good condition and compliant with standards set by the Americans with Disabilities Act. Property owners with broken sidewalks will be given the option to make repairs themselves or wait for the city to make the repair.

• This plan is intended to be a comprehensive approach, applying to all sidewalks in disrepair throughout the city. The city will cite and order to repair sidewalks adjacent to properties owned by other governmental agencies.

• Repairs will be prioritized in order of importance as follows: city government buildings; transportation corridors, hospitals, medical facilities, assisted living and similar facilities; facilities containing employers, and; other areas such as residential neighborhoods and undeveloped areas.

• The City's Bureau of Engineering will develop a prioritization and scoring system, eventually assigning a numerical score to each sidewalk segment, based on the following: the prioritization criteria indicated above; severity of sidewalk damage; cost-effectiveness and contiguity of damaged section; liability concerns; a mobility disability nexus by nearby residents or other users of the stretch of sidewalk; complaints generated by the broken sidewalk, and; the volume of pedestrian traffic. Eventually, a consolidated system would be available noting complaints received and providing information about scheduled repairs and related projects, along with a complete inventory as sidewalks are certified.

• Twenty percent of the annual sidewalk settlement program funding would be used for an "access request program." Run through individual council district offices, it would coordinate targeted repairs where shattered sidewalks impede mobility-

disabled individuals.

 City crews and private contractors will do the work. The city crews will make "demand-based repairs," especially where there are liability concerns, along with additional repairs needed under the city's warranty. The remainder of the repairs will see the city divided into regions with each region's repair needs put out to bid for certified contractors.

 The Council committed to preserving as many trees as feasible — to protect the "urban forest" — and to replant trees when they must be removed, with an eye for species whose roots will be less likely to cause future sidewalk damage. Before tree removal, a variety of options would be considered, including meandering paths and modified easements, root pruning and shaping, alternative materials that are compliant with the ADA.

• The city council "agrees with the philosophy" recommended by multiple groups to explore alternative designs and materials that "promote environmental objectives like maximizing groundwater infiltration, providing flexibility for tree growth and otherwise make parkways more sustainable and resilient.

• The council also would like the sidewalk program to assist in workforce development and job training programs. And, the city will seek ways to finance the program that will accelerate completion of the work in the shortest timeframe

• Finally, the City Attorney will prepare ordinances that amend all relevant sections of the Municipal Code regarding sidewalk repairs to allow phase-in of the transfer of responsibility back to property owners. The street tree root exception also will be repealed, which will allow the city to cite and enforce against sidewalk damage once an owner assumes responsibility.

CONDO MEDIAN PRICE HIGHEST **SINCE 2007**

BY GINA UZUNYAN, PRESIDENT, AND DAVID R. WALKER SOUTHLAND REGIONAL ASSOCIATION OF REALTORS® HOME AND CONDOMINIUM SALES THROUGHOUT THE SAN FERNANDO VALLEY POSTED SLUGGISH RESULTS DURING FEBRUARY WHILE THE MEDIAN PRICE OF CONDOMINIUMS THAT CHANGED OWNERS HIT ITS HIGHEST MARK SINCE 2007, THE SOUTHLAND REGIONAL ASSOCIATION OF REALTORS REPORTED TUESDAY.

Realtors helped close escrow on 322 singlefamily homes last month, off 6.7 percent from a year ago, while the 135 condominiums

that changed owners were down 10.6 percent compared to February 2015.
"It's not unusual for February closed escrows to be soft since they represent activity over the closing months of the prior year when people are less likely to move because of the holidays," said Gina Uzunyan, the 2016 president of the 9,500-member Southland Regional Association of Realtors. "Fewer closed escrows also reflect the ongoing lack of inventory and the diminishing number of households that can afford to buy as resale prices march higher, even if the pace of increase has slowed dramatically.

Nonetheless, Uzunyan expects resale activity to perk up in the coming months and for 2016 to see a busy local resale market, especially now that regulators decided not to raise interest rates.

"Interest rates on home loans increased slightly earlier this year, yet remain very desirable," Uzunyan said. "Low rates keep the market humming.

The median price of the 322 singlefamily

homes that changed owners last month came in at \$561,000, up 6.9 percent from February 2015.

Home resale prices appear to have plateaued with the high point coming in July when the median price was \$600,000. That was 14.4 percent below the record high \$655,000 home median price set in June 2007.

The condominium median price continued to climb with February's median of \$380,000 up 10.0 percent from a year ago, a number not seen since 2007, yet still 8.4 percent below the record-high condo median price of \$415,000, which was set

in February 2006.

"As affordability looms larger, we'll see single-digit increases replace the doubledigit hikes in the median prices, even if the inventory stays tight and competition stays heavy," said Jim Link, the Association's chief executive officer. "Unlike last decade, buyers today balk when they hit a certain price point. Smart buyers simply refuse to go

higher if they think a property does not merit the price.

L i n k a

Link and 2005 \$145,000 Uzunyan agreed 2003 \$275,000 that stricter lending requirements and 2006 \$325,000 requirements and 2006 \$415,000 tougher appraisals 2007 would keep 2009 increases in check, 2010 2010 something that did 2012 not happen during 2013 \$250,000 the build-up to the build-up to the 2015 \$346,000 \$380,000 recession during the first decade of the century.

available, but that

\$415,000 \$400,000 \$330,000 \$210,000 \$227,000 \$199,900 \$199,900 \$260,000 \$345,000 8.1% -11.9% 0.0% 30.1% 18.1% -5.3 1.6 swell anytime soon. There were 1,300 homes and condominiums on the Multiple Listing Service operated by the Association at the end of February.

That was down 6.7 percent from a year ago and represented a 2.8-month supply at the current pace of sales, which was unchanged from a year ago.

A 6-month supply is desired, yet that may be wishful thinking with a target 4-month supply being more realistic, especially as families, particularly Baby Boomers, stay in homes longer,

Standard sales continued to dominate the market with 90.4 percent of home and condominium closed escrows during February falling into that category. Sixteen transactions were foreclosure related, for a 3.5 percent market share, while 23 homes and condominiums, or 5.0 percent of the February combined residential total, used a short sale to change owners.

They also noted The median price of condominiums sold during February throughout the San Fernando Valley stood unat there are still plenty of buyers at \$380,000, which was 8.4 percent or \$35,000 below the record high of \$415,000 set in 2006.

the supply of homes listed for sale is unlikely to

SUBURBS STILL CALL WHEN IT'S TIME TO BUY A HOME

BY GINA UZUNYAN, PRESIDENT, AND DAVID R. WALKER SOUTHLAND REGIONAL ASSOCIATION OF REALTORS®

LIVING IN AN URBAN AREAS SOUNDS FUN WHEN YOUNG AND FOOTLOOSE, YET WHEN IT'S TIME TO BUY, A SINGLEFAMILY HOME IN THE "BURBS" IS STILL THE GOAL, AT LEAST THAT'S WHAT A NEW NATIONWIDE STUDY

A growing share of homebuyers are from the millennial generation and more of them are purchasing single-family homes outside urban areas, according to the 2016 Home Buyer and Seller Generational Trends study produced by the National Association of Realtors.

Interestingly, the younger the buyer, the older the home they purchased — which speaks to the limited inventory in many high-population and high-cost regions. Overall, the majority of buyers in all generations continue to purchase a singlefamily home in a suburban area.

"The median age of a millennial homebuyer is 30 years old, which typically is the time in life when one settles down to marry and raise a family," said Lawrence Yun, NAR's chief economist. "Even if an urban setting is where they'd like to buy their first home, the need for more space at an affordable price is for the most part pushing their search farther out.

Limited inventory in "millennials' price range, minimal entry-level condo construction and affordability pressures make buying in the city extremely difficult for most young households," he said.

For the third straight year, the largest group of recent buyers were millennials, who composed 35 percent of all buyers, up from 32 percent in 2014, and more than the combined amount of younger and older boomers, at 31 percent. Generation

X were 26 percent of buyers, and the Silent Generation made up 9

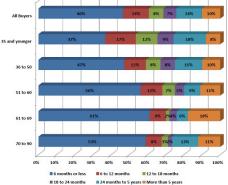

percent.

This year's survey underlined the challenges debt had on some buyers' ability to purchase a home. While debt delayed saving for a down payment for a median of four years for all buyers, the number of years postponed increased from three years for millennials to six years for older

Among the share of buyers who said saving for a downpayment

was the most difficult task, millennials were most likely to cite student debt, 53 percent, as the debt that delayed saving, while credit card debt was indicated more by Gen X, 44 percent, and younger boomers at 36 percent.

According to Yun, student debt is likely impacting more than just the millennial generation's ability to buy a home. "Whether it's from financing their own education or borrowed for their children, it's somewhat surprising to see a higher median amount of student debt among Gen X at \$28,000 and younger boomer buyers, \$29,100, compared to millennials at \$25,000," Yun noted. "One of the many reasons housing supply has been subdued ... may be because a segment of homeowners have decided to delay trading up or moving down in order to pay down their debt, including from student loans.'

SURVEY FINDS DEEP NEED FOR MORE HOMES

BY GINA UZUNYAN, PRESIDENT, AND DAVID R. WALKER SOUTHLAND REGIONAL ASSOCIATION OF REALTORS® THREE OUT OF FOUR HOUSEHOLDS NATIONWIDE WOULD BUY A SINGLE-FAMILY HOME IF ONLY THERE WERE MORE HOMES AVAILABLE AT A PRICE THEY COULD AFFORD, WHICH POINTS TO A CRITICAL NEED FOR MORE NEW HOME CONSTRUCTION, A NATIONAL SURVEY FOUND.

According to the National Association of Realtors' new quarterly consumer survey, confidence about now being a good time to buy is waning among renters throughout the West and particularly here in California where prices have risen to levels just below the boom of last decade.

Survey respondents were asked about their confidence in the U.S. economy and various questions about their housing expectations and preferences, including a question on if they were to purchase a house in the next six months, what type of home and in what area would they choose to buy.

Consumers overwhelmingly preferred single-family homes in suburban areas. Eighty-five percent of homeowners and 75 percent of renters said they would purchase a single-family home, while only 15 percent of homeowners and 21 percent of renters said that would buy in an urban area.

Lawrence Yun, NAR chief economist, said the survey findings call attention to the glaring need for more supply of single-family homes.

"The American Dream for most consumers is not a cramped, 500-square-foot condo in the middle of the city," he said, "but instead a larger single-family home within close proximity to the jobs and entertainment an urban area provides."

While not a new discovery, supply and demand imbalances and unhealthy levels of price growth in several metro areas have made buying an affordable home a difficult to impossible task for far too many first-time

buyers and middle-class families.

It's time homebuilders double their focus on constructing single-family homes, Yun said. With millennials increasingly buying in the suburbs, tight inventory and affordability

concerns will likely worsen without significant increases in housing starts in relation to job creation.

A high number of homeowners are expressing that it's a good time to buy, a sentiment no doubt fueled by the \$4.4 trillion in housing equity accumulation in the past three years.

"On the other hand," Yun said, "accelerating home prices and the perceived difficulty in obtaining a mortgage appears to be tugging at the confidence of renters."

Realtors Present Homebuyer Grant

Joe and Patricia Juarez, pictured below second and third from the left, received a grant recently from the Southland Regional Association of Realtors and the California Association of Realtors' Housing Affordability Fund.

They applied the \$2,000 grant toward the purchase of a home in Sylmar. The transaction was completed with the assistance of their Realtor, Chona Aros, left. The check was presented by Jim Ezell, right, who is the chairman of the Southland Regional Association of Realtors' charitable foundation.

SRAR and C.A.R. offer the grants to qualified prospective home buyers who meet

specific qualifications. All of the 2016 grants have already been awarded.

Send an email to Oscar@ srar.com if you want to receive info should the homebuyer grant program be renewed in 2017

Crowded Field for 5th Supervisorial District Seat

Streamlining the permit process and making it easier to open and run a business were among the most talked about topics at a recent forum of seven candidates, pictured below, running for the 5th Supervisorial District seat that has been held for decades by Supervisor Michael D. Antonovich.

The gathering at the Tournament Players Club at Valencia was presented by the Santa Clarita Valley Chamber of Commerce and the Santa Clarita Valley Division of the 9,500-member Southland Regional Association of Realtors.

Candidates for the 5th Supervisorial District, Los Angeles County, from left to right: Mayor Ara Najarian, City of Glendale; Billy Malone, vice president of the Altadena Chamber of Commerce; State Senator Bob Huff; Kathryn Barger, chief of staff for Supervisor Michael Antonovich; L.A. City Councilman Mitchell Englander; Elan Carr, L.A. County Deputy District Attorney; and Darrell Park, former staffer at the White House Office of Management and Budget.

Public safety, cleaner air, how to ensure gas storage facilities are safe, and how to enhance general economic development throughout the district and particularly in the Santa Clarita Valley were among the issues discussed.

Each candidate emphasized their own skill set and each offered their own emphasis and unique perspective on priorities for the seat, which many regard as the most powerful governmental position in the region, one requiring deep knowledge about how government works.

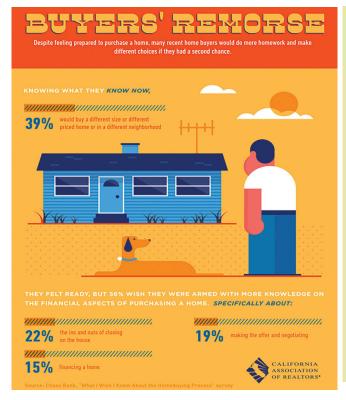

The Fifth District seat, which includes Santa Clarita, Palmdale, Lancaster and portions of the East San Fernando Valley, has been represented since 1980 by Antonovich, who cannot seek reelection due to term limits.

Want to Buy a Home?

Learn How at Free Seminar!

Thinking about buying a home? It's a multiple-step process that can go smoother with more satisfying results if prospective buyers do their homework, prepare their finances, and choose the best representation available before jumping into today's fast-paced, high-intensity real estate market.

To ensure the best outcome possible, set two hours aside to attend a free homebuyer seminar on Saturday, May 7, from 10 a.m. to noon.

出HOMEBUYER ESEMINAR

Experts on every phase of the process will provide insight on topics such as how to secure downpayment assistance, the difference between and availability of FHA and

conventional loans, the tax and financial benefits of owning a home versus renting, the vital importance of good credit and how to improve a credit score, tips working with a Realtor, and if attendees qualify for city homebuying assistance programs.

This seminar is strictly for the general public. Realtor members of the Southland Regional Association of Realtors, which is presenting the program, are not permitted to attend unless accompanying a client. Be sure to RSVP by calling 818-947-2298 or write via email to Oscars@srar.com. The seminar will be held at the Association's headquarters, located at 7232 Balboa Blvd., Van Nuys, just north of Sherman Way. RSVP today!

ALL CLASSES LISTED BELOW ARE HELD ON WEDNESDAYS 9:00 AM to 12:00 PM AT THE SRAR OFFICE 7232 BALBOA BLVD., VAN NUYS, CA 91406
